# Decal Group - Safety & Operation USA Models

Note: Unless noted otherwise, use the standard torque specifications

Mfg. No: 5901887

5304038

**WARNING**

**Fire Hazard**  
Gasoline is flammable. Debris is combustible.

- Allow engine to cool for at least 3 minutes before refueling.
- Keep unit cleaned of debris
- This equipment may create sparks that can start fires around dry vegetation. A spark arrester may be required. Contact local fire agencies for regulations relating to fire prevention requirements.

5103665

The operator's manual is available in Spanish. La manual del operador está disponible en Español. 5104589

**Ignition System (Gasoline Models)**  
This spark ignition system complies with Canadian standard ICES-002.

**⚠ DANGER**

**Amputation and thrown objects hazard**

- Keep hands and feet away from deck.
- Do not operate mower unless discharge chute or entire grass catcher is in its proper place.

719165

**⚠ WARNING**

**Avoid serious injury or death**

- Read operator's manual before using this product.
- Go across slopes, NOT up and down, while backing.
- Stop the mower when children or others are near.
- Remove objects that could be thrown by the blade.
- Keep safety devices (guards, shields, switches, etc.) in place and working.
- Do NOT operate this machine unless you are trained.
- Know the location and function of all controls.
- Avoid steep slopes. Reduce speed and use extreme caution on slopes.

5100465

**⚠ DANGER**

**Falling Off Sulky Hazard**

- Read the Operator's Manual.
- Follow all Safety Rules and Information.
- Do NOT operate on slopes over 20 degrees.

**Crushing Hazard of Sulky - It May Cause Serious Injury**

- Do NOT allow sulky to rotate more than 90 degrees while standing on sulky platform.
- Do NOT operate in reverse (back up) while standing on sulky platform, always dismount sulky.
- Always place sulky in transport position (secured by the chain) before loading or unloading mower on a trailer.

5106763

The guides and ruler furnished below are designed to help you select the appropriate hardware.

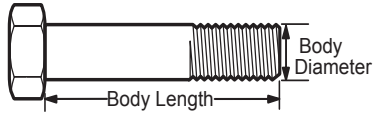

Nut, M8

Thread Diameter (mm)

Inside Diameter (in)      Threads per inch

Nut, 1/2-16

Screw, M8- 1.25 x 25

Thread Diameter (mm)      Distance between threads (mm)      Body Length (mm)

Body Diameter      Threads per inch      Body Length (in)

Screw, 1/2- 16 x 2

## Standard Hardware Sizing

When a washer or nut is identified as 1/2" (M8), this is the *Nominal size*, meaning the *inside diameter* is 1/2 inch (8mm metric thread diameter); if a second number is present it represents the *threads per inch* (distance between threads).

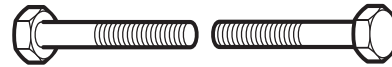

When bolt or capscrew is identified as 1/2 - 16 x 2" (M8 - 1.25 x 50), this means the *Nominal size*, or body diameter is 1/2 inch (8mm metric thread diameter), the second number, 16, represents the *threads per inch*, (*distance between threads*). The final number is the body length of the bolt or screw, 2 inches (50mm).

## NOTES

- These torque values are to be used for all hardware excluding: locknuts, self-tapping screws, thread forming screws, sheet metal screws and socket head setscrews.
- Recommended seating torque values for locknuts:
  - for prevailing torque locknuts - use 65% of grade 5 torques.
  - for flange whizlock nuts and screws - use 135% of grade 5 torques.
- Unless otherwise noted on assembly drawings, all torque values must meet this specification.

## Common Hardware Types

Hex Head Capscrew

Washer

Carriage Bolt

Hex Nut
