2017 COMMERCIAL MOWERS
WHY CHOOSE FERRIS® COMMERCIAL MOWERS?

What Separates Us from Our Competition Separates You from Yours.

At Ferris®, we provide commercial landscaping equipment that helps you work faster, while accomplishing more with greater ease. We do this through our industry-leading innovation, uncompromising performance and quality.

We started our innovation journey by developing the first multi-patented suspension system for the riding lawn mower, making it possible to cut faster – not slow down – even on uneven terrain. We’ve continued to grow this innovation by expanding our zero-turn product offerings featuring suspension. Working in harmony with the suspension, we’ve designed our mower decks to give you greater control to get perfectly striped lines and a beautiful, level cut in less time.

Whether you choose one of our riding or walk-behind mowers, our entire fleet is designed with built-to-last construction that can withstand the rigors of all-day, all-week commercial-duty cutting. We utilize quarter-inch steel at stress zones to protect areas prone to impact from curbs or transporting between jobs. Our engineers designed moving parts to last longer, reducing your downtime and increasing your bottom line.

Whether you manage a fleet and a crew of lawn professionals or you’re a discerning homeowner with expansive acreage, a Ferris mower reminds you why you love it every time you start it up.

Suspension Technology

Whether you are a professional landscaper or weekend warrior, Ferris® Mowers with patented suspension technology will give you a noticeable improvement in your mowing productivity. These mowers were built from the ground up to be the hardest working and smoothest riding. Our engineering team developed these systems with the operator’s needs in mind. Ferris mowers are built to tackle tough terrain and finish big jobs faster.

Productivity

The benefits of our patented suspension systems add up to increased productivity for you. Many operators are not aware that they slow down to compensate for uneven terrain — until they test-drive a Ferris with suspension. Isolated from these effects, the operator naturally maintains speed, taking full advantage of available horsepower. The result: More acres per hour and more money in your pocket. Visit www.FerrisMowers.com to calculate your own productivity results.

Consistency of Cut

The mower deck follows the movement of the wheels and the flow of the terrain. The result is a beautiful, consistent cut.

Extended Mower Life

Suspension also benefits the chassis by reducing shock load. Our frame rails are made of much heavier material because we do not rely on frame flex to keep all four wheels on the ground.

Comfort

Our patented suspension systems absorb the shocks and vibrations that cause operator fatigue. The increased comfort translates to operator satisfaction and increased productivity.

I'll Never Buy Another Brand!

“I own and operate a small lawn care service and I’ve been searching for the most “bang for my buck.” Obviously, I’m trying to make money, not spend it. I must say that, after purchasing my Ferris, I have found that my body, specifically my back where I have significant disc issues anyway, feels so much better after a day full of mowing than it has in the past year and a half! The Ferris suspension system alone is worth your investment. That’s exactly the way to think about purchasing a new zero-turn, whether you are just doing residential lawn care or are running a commercial business, the Ferris zero-turn mowers with their suspension system are a fantastic investment that will save you time and money on and off the job! I really couldn’t be happier with this purchase!”

Dan Hartman, Owner / Operator of Hartman’s Lawn Care in Sherman, IL

So How Does It Work?

Ferris’ patented suspension system is engineered to provide you with a smooth ride on uneven turf. The cutting deck of the mower works in conjunction with the suspension system to provide a consistent quality of cut. This system minimizes shock to the chassis, resulting in superior comfort, stability and increased mowing efficiency.

Text “SMOOTH” to 33988 to see it in action!

Data rates may apply.
**It's All About the Cut**

The iCD™ Cutting System was engineered to produce the best possible cut in a multitude of conditions. Every component works together to achieve superior cut quality. The deck design and extra wide discharge opening allow for a more even and greater dispersal of clippings. The shell features a sloped nose design which allows the blades of grass to rise in the chamber before making contact with the blades and also reduces the amount of clippings that are discharged from the front. Slice through thick grass with ease and get the job done sooner than you expected.

1. Flexible recycled rubber discharge chute reduces contact damage
2. Extra wide discharge opening evenly disperses grass clippings
3. Multi-layer heavy-gauge steel construction for maximum strength
4. Debris shield on idler pulleys keeps moisture and debris away, extending bearing life
5. **NEW!** Belt Guide. Steel arm helps prevent belt from dislodging from pulley (Standard on 52”, 61” and 72” decks)
6. **NEW!** Ferris® exclusive design, cast-iron, seamless, wider ductile backside belt tensioner with deep flange and oversized ball bearings for a smooth tensioning system (Standard on 52”, 61” and 72” decks)
7. **NEW!** Deeper groove spindle drive pulleys for smoother engagement that’s less likely for a belt to dislodge from the pulley or roll (Standard on 52”, 61” and 72” decks)
8. Reinforced leading edge provides protection where the deck needs it most
9. Center point is offset, optimizing airflow for discharge
10. Slope nose design reduces the amount of clippings discharged from the front
11. Deck step allows for easy entry and exit from the operator’s compartment

Ferris® uses two layers of steel running across the full width of our deck, welded in opposing directions for maximum strength.

---

**Hercules™ II Spindles**

Industrial 10” diameter cast-iron spindle assembly with 1 1/4” diameter shaft and greaseable double row angular contact ball bearings, which can be greased through the convenient top access grease fitting.

**Cast-Iron Spindles**

Larger usable life, 1” shaft with top access grease fitting for greaseable dual ball bearings, six bolt 8” flange design and strength and greater dispersal of energy to deck assembly.

**Aluminum Spindles**

Feature 1” shaft with greaseable large dual ball bearings with top access grease fittings and pressure relief valve.

**Marbain® Steel Blades**

Our exceptionally strong 1/4” thick blades generate greater lift for a precision cut and require less frequent sharpening.
1. Easy fill cap and integrated oil filter make tool-free oil changes easier, cleaner and faster.
2. High-capacity external oil reservoir keeps oil and engine cooler.
3. Unique, dry sump system ensures off-angle lubrication and minimizes thermal breakdown of oil.

**500 Hours Between Oil Changes!**

Save 60% on Oil Maintenance Per Season Per Unit!*

Ferris® Commercial Mowers with the new Vanguard™ Oil Guard System raise the bar on how productive a landscape contractor can be on any given day. A first-of-its-kind solution for the commercial turf market, Ferris mowers with the Oil Guard system offer major productivity gains by allowing landscape contractors to operate their mower for 500 hours between oil changes. Increasing the oil change interval by 5x means less time spent changing the oil and more time cutting.

Text “500HOURS” to 33988 to learn more.

Data rates may apply.

* Cost savings based on standard oil maintenance with 100 hour interval versus Oil Guard System 500 hour service interval.

All Vanguard™ Oil Guard Systems come factory filled with Vanguard Oil, a full-synthetic 15W-50 small engine oil for maximum performance. The Oil Guard System is available on these Ferris® mowers:

- IS® 3200Z Vanguard® Big Block®
- IS® 2100Z Vanguard® Big Block® EFL
- F320Z Vanguard® Big Block® EFL
- F210Z Vanguard® Big Block® EFL
- SRS® Z2 Vanguard® EFL
- FW35 Vanguard® EFL
How to Choose the Best Zero-Turn Mower for You

Enjoy your lawn equipment investment for years to come by starting with the right questions.

For most users, zero-turn mowers are the preferred choice when cutting lawns with trees, shrubs and other obstacles that you must navigate around, often eliminating the need to return with a trimmer. Also, be sure to consider deck size; a bigger deck reduces the number of passes — just make sure it will fit in your shed and on your trailer.

The most important consideration: how many hours will you use your riding mower? Daily use puts a higher priority on productivity, comfort and fuel capacity. Ferris has an advantage over the competition with its patented suspension package on its IS® Series zero-turn mowers. Paired with an incremental range of seat models, these machines not only deliver superior riding comfort throughout the day, they mow over rough terrain in less time.

Speaking of saving time, select models within the IS® Series now feature enhanced productivity, with the new Vanguard™ Oil Guard System offering 500 hours between oil changes.

Ride-On Warranty

Each customer has different needs, so Ferris created the 2+2 Year limited warranty. One simple warranty covers all our ride-on mowers for four years (48 months) or 500 hours, whichever occurs first. During the first two years (24 months), the mower is covered for unlimited hours. Belts, tires, brake pads, battery and blades are covered for 90 days.

Suspension Warranty

All consumers who purchased a Ferris riding mower with suspension will have the coil over shocks and all suspension-related components covered for 4 years (48 months), unlimited hours. This warranty works in conjunction with the Ferris 2+2 commercial warranty to add an additional two years unlimited hours to the unit’s suspension system. We are committed to providing performance, productivity and durability.

*See operator’s manual or www.ferrismowers.com for complete warranty details. Refer to engine operator’s manual for engine warranty details.
The IS® 3200Z is the latest in mowing technology. We took our top-of-the-line design and made it even more reliable and durable. The drive system features independent, commercial Hydro-Gear® ZT-5400 Powertrain® Transaxles for improved dependability and increased performance. Large 26” drive tires allow for greater traction, smoother ride and improved curb climbing performance. The deck mounting and leveling systems have been updated with solid steel hangers for added reliability and ease of adjustment.

ENGINE
• NEW! Oil Guard System on Vanguard™ BIG BLOCK™ Engine options
• Two-stage industrial air-cleaner
• Easy-to-use oil drain
• Rugged twin 5.5-gallon fuel tanks (11 gallons total)

MOWER DECK
• iCD™ Cutting System
• NEW! 2-belt drive system that improves belt life and is more dependable
• Foot-operated deck lift, with adjustable pedal, can change cut height in 1/4” increments from 1.5”-5”
• Hercules™ II spindles with greaseable bearings for longer usable life

SUSPENSION & DRIVE TRAIN
• Patented suspension system enables you to mow uneven terrain faster with a consistent cut quality allowing you to be more productive
• Heavy-duty integrated rear bumper protects engine compartment
• Dual commercial Hydro-Gear® ZT-5400 Powertrain® Transaxles feature 9” cooling fans that assist with repelling debris
• Large turf friendly 26” rear tires for increased traction and performance

SPEED
• Ground speed up to 12 mph

OPERATOR SYSTEMS
• Ergonomic control panels feature a cup-holder, storage compartment and fuel gauges for operator convenience
• NEW! Comfortable thicker 1” tubular steering control levers

ACCESSORIES
• Collection systems (61”), mulch kit, trailer hitch kit, ROPS mounted LED light kit, flat-free caster tires, professional stripe kit, suspension seat

The IS® 3200Z comes with a limited warranty of three years (36 months) or 300 hours, whichever occurs first. The warranty covers parts & labor in year one and parts only in years two and three.

†See operator’s manual or www.ferrismowers.com for complete warranty details.

*All power levels are stated gross horsepower at 3600 RPM per SAE J1940 as rated by Briggs & Stratton.
**All power levels are stated gross horsepower per SAE J2723 as rated by Kawasaki.

Superb Mowing Machine ★★★★★
“I bought the mower two months ago and are mowing commercial properties, some of considerable size... 4 acres or more. The ride and mowing quality both are beyond compare and the best I have ever experienced. Since a lot of the properties we mow are quite rough with ruts and bumps, this mower has reduced the mowing time on several of these properties by at least 30% to 50% since the suspension allows for high speed mowing even on the rough fields and the cut is first class.”

Dutch 1944 / LA

Dutch 1944 / LA
The IS® 2600Z Series of mowers builds on the Ferris zero-turn legacy, offering diesel power with premium features and enhanced productivity. Featuring our iCD™ Cutting System and long-life greaseable cast-iron spindles, this machine truly performs under the rigors of professional landscaping. No other product in its class can match its value, especially when paired with the benefits of the Ferris patented suspension system.

ENGINE
- Two-stage industrial air-cleaner
- Easy-to-use oil drain
- Rugged twin 5.5-gallon fuel tanks (11 gallons total)

MOWER DECK
- iCD™ Cutting System
- Foot-operated deck lift, with adjustable pedal, can change cut height in 1/4” increments from 1.75”-5”
- Cast-iron spindles with greaseable bearings for longer usable life

SUSPENSION & DRIVE TRAIN
- Patented suspension system enables you to mow uneven terrain faster with a consistent cut quality allowing you to be more productive
- Dual commercial Hydro-Gear® ZT-4400™ Transaxles feature 8.3” cooling fans that assist with repelling debris
- Heavy-duty integrated rear bumper protects engine compartment
- Large turf friendly 24” rear tires for increased traction and performance

SPEED
- Ground speed up to 10 mph

OPERATOR SYSTEMS
- Ergonomic control panels feature a cup-holder, storage compartment and fuel gauges for operator convenience
- NEW! Comfortable thicker 1” tubular steering control levers
- Premium mid-back seat features enhanced bolsters, with adjustable cushioned armrests for added comfort, and offers adjustable fore and aft positioning

ACCESSORIES
- Mulch kit, trailer hitch kit, ROPS mounted LED light kit, flat-free caster tires, professional stripe kit

Like going from a Go Cart to a Cadillac ★★★★★

*After reading reviews about a smooth ride and quality of construction, and the upgrades this year on the IS® 2600Z, I decided on Ferris. I’m glad I did. The diesel engine is quiet compared to my old twin gas engine zero turn and now I can fill with my farm tank and stop hauling gas cans. The suspension and seat are so comfortable that I find myself going much faster than my old mower. ~ Big Red

Efficient Yanmar™ 3-cylinder diesel engine. Patented suspension system consists of adjustable rear coil-over-shocks (shown) and front independent adjustable coil-over-shocks. Cast-Iron Spindles add strength and greater dispersal of energy to deck assembly. Quick-release latches allow for easy access to engine compartment. Quick removal of the floor pan provides convenient access to the top of the deck for easy cleaning and service. Foot-operated deck lift, with adjustable pedal, can change cut height in 1/4” increments from 1.75”-5”. Heavy-duty integrated rear bumper protects engine compartment. New! Comfortable thicker 1” tubular steering control levers.
Spend one day on the IS® 2100Z zero-turn and you’ll discover how our patented suspension technology turns slow, bumpy mowing into riding comfort and enhanced productivity. With Ferris’ iCD™ Engineering under the mower deck, you’ll enjoy consistently accurate cutting performance. This machine is an aggressive performer for pros or discerning homeowners.

Step Up to a New Level of Comfort and Productivity

Our stand-on mower series combines speed, agility and a high quality of cut for comfort and unprecedented performance. Step on the SRS™ Z1 or ZZ Soft Ride Stand-On Mower, and you may not want to get off.

Expanding on our zero-turn lineup of commercial lawn mowers, the SRS™ Series of mowers delivers the kind of heightened productivity that has become synonymous with the Ferris brand, in a stand-on machine. Precision-engineered for superior maneuverability and balanced stability and traction, the ergonomically-designed SRS Z1 and ZZ mower are loaded with innovative features that live up to Ferris’ unwavering commitment to quality.

New to the line-up, the SRS Z1 offers all of the same great productivity and comfort as the larger ZZ, while offering smaller mowing deck options for getting through tight gates or loading on smaller trailers.

Ride-On Warranty

Each customer has different needs, so Ferris created the 2+2 Year limited warranty. One simple warranty covers all our ride-on mowers for four years (48 months) or 500 hours, whichever occurs first. During the first two years (24 months), the mower is covered for unlimited hours. Belts, tires, brake pads, battery and blades are covered for 90 days.

Suspension Warranty

All consumers who purchased a Ferris riding mower with suspension will have the coil over shocks and all suspension-related components covered for 4 years (48 months), unlimited hours.

This warranty works in conjunction with the Ferris 2+2 commercial warranty to add an additional two years unlimited hours to the unit’s suspension system. We are committed to providing performance, productivity and durability.

† See operator’s manual or www.ferrismowers.com for complete warranty details. Refer to engine operator’s manual for engine warranty details.
The Soft Ride Stand-On SRS™ Z2 is raising the bar with our adjustable operator platform, featuring suspension technology, optimizing operator comfort and increasing productivity! The superior balance provides stability and maneuverability that exceeds expectations for traction and handling.

The Soft Ride Stand-On SRS™ Z2 is designed to allow for quick operator exit and re-entry. Need to walk away from the mower to move an obstacle or debris? The PTO will automatically disengage when the operator leaves the platform. Restarting the blades is just as easy. When the operator steps back onto the platform and reengages the PTO switch, the blades start again for continued mowing.

**Very Smooth ★★★★★**

“Overall very smooth ride. Less jolt to body on uneven terrain than other stander units. Trim ability is good. Speed control setting is a great feature when working with different operators. Very good machine.”

Tommy / Yorkville, IL

---

All power levels are stated gross horsepower per SAE J1940 as rated by Briggs & Stratton.

**Oil Guard System**

- **NEW!** Oil Guard System with extended oil change intervals — 500 hours on Vanguard™ 810 EFI engine equipped models.
The SRS™ Z1 offers all of the same great productivity and comfort as the larger SRS Z2, but in a more compact package. With smaller mowing deck options, the Z1 is optimal for navigating through tight gates or loading on smaller trailers.

True to the Soft Ride Stand-On (SRS) series, the adjustable operator platform on the Z1, features suspension technology, offering operator comfort and performance, while providing stability and maneuverability that exceeds expectations for traction and handling, whether on slopes or on flat terrain. Need to walk away from the mower to move an obstacle or debris? The PTO will automatically disengage when the operator leaves the platform. Restarting the blades is just as easy. When the operator steps back onto the platform and reengages the PTO switch, the blades start again for continued mowing.

**ENGINES**
- Vanguard™, Kawasaki® FX600V or FX691V Engine options
- Two-stage industrial air-cleaner
- Easy-to-use oil drain
- Rugged 6-gallon fuel tank

**MOWER DECK**
- 36” 10-gauge fabricated or 48” iCD™ Cutting System
- Hand-operated deck lift, can change cut height in 1/4” increments from 1.75” - 4.5”
- Greasable cast-aluminum spindles

**SUSPENSION & DRIVE TRAIN**
- Adjustable cut-over-shock suspension operator platform optimizes comfort
- Dual commercial Hydro-Gear® ZT-3400™ Transaxles feature 7” cooling fans that assist with repelling debris
- Easy locking 3-position speed control setting
- Large 23” turf friendly drive tires, 11” flat-free caster tires for increased traction and performance

**SPEED**
- Ground speed up to 8 mph

**OPERATOR SYSTEMS**
- Ergonomic control panel features integrated forward and reverse levers with stabilizer bar
- Ergonomic thigh pad is designed for improved comfort
- Automatic PTO disengagement
- Hour meter, fuel level gauge

**ACCESSORIES**
- Metal grass catcher, mulch kit, professional stripe kit (48”)
- Commercial Hydro-Gear® ZT-3400™ Transaxles are designed for high performance and are fully serviceable.

A New Series of Mowers in Our Fleet

You’re a serious professional who demands serious lawn mowing performance. Need a commercial-grade zero-turn lawn mower big on features yet light on the wallet? We’ve got you covered! The Fleet Series comes equipped with an impressive combination of features and premium components, designed to get you in and out of your jobs quickly and confidently. With three models to choose from, ranging from 36” to 72” cutting widths, you’ll be sure to find the right solution for your crew.

What about comfort, you ask? We thought about that, too. Our premium suspension seats with cushioned armrests feature enhanced bolstering and are ergonomically designed with the ability to adjust to the operator’s height and weight for a custom-like fit. These commercial zero turn mowers have been engineered to deliver comfort and ease of use.

You’ll also benefit from the flat-free caster tires that are standard equipment, found on all Fleet Series models, so your crew can be productive all day.

Hardworking, zero turn mowers designed for the professional who wants value without having to sacrifice performance. Get in and out of your jobs fast with the Fleet Series from Ferris®.

† See operator’s manual or www.ferrismowers.com for complete warranty details. Refer to engine operator’s manual for engine warranty details.

Ride-On Warranty

Each customer has different needs, so Ferris created the 2+2 Year limited warranty. One simple warranty covers all our ride-on mowers for four years (48 months) or 500 hours, whichever occurs first. During the first two years (24 months), the mower is covered for unlimited hours. Belts, tires, brake pads, battery and blades are covered for 90 days.

† See operator’s manual or www.ferrismowers.com for complete warranty details. Refer to engine operator’s manual for engine warranty details.
If you demand power, performance and dependability all at a great value, look no further than the Ferris® F320Z. This top-of-the-line Fleet Series model comes equipped with a premium high-back adjustable suspension seat and heavy-duty components, such as cast-iron Hercules™ II Spindles. Large 26” drive tires allow for greater traction, smoother ride and improved curb climbing performance.

**ENGINE**
- **NEW!** Oil Guard System on Vanguard™ BIG BLOCK™ EFI engine options
- Two-stage industrial air-cleaner
- Easy-to-use oil drain
- Twin 5.5-gallon rugged, impact resistant fuel tanks with switch for fuel source (11 gallons total)

**MOWER DECK**
- iCD™ Cutting System
- **NEW!** 2-belt drive system that improves belt life and is more dependable
- Foot-operated deck lift, with adjustable pedal, can change cut height in 1/4” increments from 1.5”–5”
- Hercules™ II Spindles with greaseable bearings for longer usable life

**DRIVE TRAIN**
- Dual commercial Hydro-Gear® ZT-5400 Powertrain® Transaxles feature 9” cooling fans that assist with repelling debris
- Heavy-duty integrated rear bumper protects engine compartment
- Large turf friendly 26” rear tires for increased traction and performance
- Flat-free caster tires

**SPEED**
- Ground speed up to 12 mph

**OPERATOR SYSTEMS**
- Ergonomic control panels feature a cup-holder, storage compartment and fuel gauges for operator convenience
- **NEW!** Comfortable thick 1” tubular steering control levers
- Suspension seat in our premium high-back design features enhanced bolstering, with adjustable cushioned armrests for added comfort, manually adjusts to operator’s height and weight, reclining back and adjustable lumbar support with fore and aft positioning for a custom-like fit
- Flip-up seat
- Removable floor pan

**ACCESSORIES**
- Collection system (61”), mulch kit, trailer hitch kit, ROPS mounted LED light kit, professional stripe kit

Our new 2-belt decks on the F320Z come with a limited warranty of three years (36 months) or 300 hours, whichever occurs first. The warranty covers parts & labor in year one and parts only in years two and three.

†See operator’s manual or www.ferrismowers.com for complete warranty details.

The Ferris® F160Z Hands Down ★★★★★

“The larger casters and tires, better hydro gears, larger fuel tank, rubber discharge chute (I prefer this) and the bigger more fuel efficient Vanguard EFI engine was a no brainier. Add to the fact it was $1000 less then the others. This F160Z is a solid machine.”

Tsarbomba1961 / Clarence, NY

Choose a Front-Mount Mower for Year-Round Productivity

Ferris® Front-Mount Riding Mowers are available in three or four-wheel configurations with the deck positioned out-front for maximum visibility from the operator’s seat. Front-mount mowers are ideal for homeowners and landscape professionals alike that are looking to reduce trimming time under low-hanging branches, shrubs and fencing. These units are also extremely versatility when it comes to adding attachments. Increase your productivity all year-round by switching out the deck for a broom or snow blower. Several optional leaf and debris collection systems are also available.

So choose from our legendary three-wheel Pro-Cut S™ or powerful four-wheel F800X zero-turn to enhance your mowing experience.

Ride-On Warranty

Each customer has different needs, so Ferris created the 2+2 Year limited warranty. One simple warranty covers all our ride-on mowers for four years (48 months) or 500 hours, whichever occurs first. During the first two years (24 months), the mower is covered for unlimited hours. Belts, tires, brake pads, battery and blades are covered for 90 days.

Suspension Warranty

All consumers who purchased a Ferris riding mower with suspension will have the coil over shocks and all suspension-related components covered for 4 years (48 months), unlimited hours.

This warranty works in conjunction with the Ferris 2+2 commercial warranty to add an additional two years unlimited hours to the unit’s suspension system.

We are committed to providing performance, productivity and durability.
The visibility and versatility of the F800X front-mount zero-turn mower can't be beat. Its out-front design is perfect for trimming around trees, bushes and landscaped areas with ease. Be even more productive with your F800X by choosing from a wide selection of accessory and attachment options.

**Engine**
- Dual-stage industrial air-cleaner extends engine service life

*Great Mower*

“I brought home my new 72” F900X. It is a very smooth machine with plenty of power. My first F800X mower, so I was surprised at how smooth it runs and how easy it starts. The Ferris took 50 minutes off of mowing my little grass runway (2,000’ X 70’) and 70 minutes off of my five-acre yard. Very happy so far.”

Micky / Mocksville, NC

- **Make your Ferris F800X even more productive with the addition of our new 60” broom attachment.**
- **Raise the deck with a flip of the switch to make mower deck maintenance a snap.**
The ProCut™ S Three-Wheel Riding Mower features a simple design for easy operation and serviceability. The three-wheel rider was the first commercial mower Ferris ever produced in 1986. Our suspension technology enhances the mowing experience with increased comfort. The improved height-of-cut control makes changing cut height a snap. If you're looking for a mower with high visibility and the ability to reduce your trimming time under low-hanging branches, shrubs and fencing, the ProCut S is for you.

**ENGINE**
- Patented advanced debris management system (Briggs & Stratton® Commercial Series Models)
- Rugged 5.5-gallon fuel tank

**MOWER DECK**
- Fabricated 10-gauge with double top deck, overlap welded corners and double reinforced side skits, steel reinforced leading edge
- Hand-operated deck lift can change cut height from 1.5" - 5"
- Electric deck lift
- Cast aluminum greaseable spindles with greaseable bearings for longer usable life

**ACCESSORIES**

**ACCESSORIES**
- Mulch kit, flat-free caster tires, professional stripe kit, 50" snow blower

"I own two of these machines. I need another one because I have so many farms and ranches. My business has made lots of money with the 3-wheel Ferris. Everyone asks why I own mowers that are nine feet long. I say because they mow all types of terrain. Love this mower!"

RB Lawns / Asheville, NC
Reasons to Choose a Walk-Behind Mower

There are several great reasons to consider a commercial walk-behind. Compared to a riding mower, lower cost is a consideration. While a zero-turn riding mower will cut a large lawn faster with less operator fatigue, a walk-behind may be all that’s needed—or would make an excellent pairing to an existing fleet. Many operators find standing gives them an improved view ahead of the cutting deck, and the slower ground speed feels more within their control. In addition, when used on slopes walk-behind mowers provide the operator with a wider stance and a lower center of gravity for better control and maneuverability. Not to mention, walk-behind mowers offer the same excellent quality of cut, as our zero-turn mowers.

Both the FW35 and FW25 series walk mowers are available with your choice of handlebar configurations, Standard or CC™ Centralized Controls. Our tried and true standard design has been in use on our walk-behind mowers for years. It offers greater leverage and is a favorite among several landscape contractors. The design of the newer CC™ Centralized Controls places the operator’s hands in the ideal position to access all in-demand controls. Ergonomic operator presence, steering and reverse levers on both handles operate with a light touch to reduce operator fatigue.

No matter your choice, purchasing a Ferris walk-behind mower with our improved cutting deck, user-friendly features and lasting durability is a smart decision.

Walk-Behind Warranty

During the first two years (24 months), our walk behind mowers are covered for unlimited hours. Belts, tires, battery and blades are covered for 90 days.

We are committed to providing performance, productivity and durability.
The FW35 dual hydrostatic walk-behind was built from the ground up to meet the demands of professional mowing crews. The design gives this mower smoother and more user-friendly operation. Easy-to-use controls include a cruise control bar and independent steering with a speed indicator. Longer belt life, 1/4" thick engine deck, and easy access to serviceable parts are just a few of the improvements. Powerful Vanguard™ and Kawasaki® FX Series Engine options paired with your choice of 48", 52" and 61" cutting widths provide productivity and performance.

**ENGINE**
- **NEW!** Oil Guard System on Vanguard™ 810 EFI engine options
- Dual-stage industrial air-cleaner extends engine service life
- Electric start standard
- Rugged 5-gallon fuel tank with wide filler neck

**MOWER DECK**
- Fabricated 10-gauge with double top deck, overlap welded corners and double reinforced side skirts, steel reinforced leading edge, wide discharge opening
- Hand-operated quick-adjust crank, can change cut height variably from 1.5" - 4.75"
- Cast aluminum greaseable spindles with greaseable bearings for longer usable life

**DRIVE TRAIN**
- Dual, commercial Hydro-Gear® ZT-3100® Transaxles feature 3" cooling fans that assist with repelling debris
- Large turf friendly 20" rear tires for increased traction and performance
- Flat-free caster tires

**SPEED**
- Ground speed up to 7 mph

**OPERATOR SYSTEMS**
- Dedicated tie-down points, located in the front and rear, make securing equipment easy
- Cruise control bar conveniently sets speed
- Features easy-to-use CC™ Centralized Controls or Standard Controls
- Centralized foot control for neutral position

**ACCESSORIES**
- Fabric Grass Catcher (48" & 52"), metal grass catcher (48" & 52"), mulch kit, professional stripe kit, weight kit

**Standard Controls**

---

**NEW! Oil Guard System with extended oil change intervals — 500 hours on Vanguard™ 810 EFI engine equipped models.**

**Hand-operated quick-adjust crank, can easily change cut height variably from 1.5" - 4.75".**

**PTD switch allows operator to stop the blades simply by putting the mower in neutral position and releasing operator presence handles, while the engine continues to run.**

**Robust 1/4" steel engine deck construction and heavy-duty transmission guards are ruggedly built to withstand daily commercial duty operation.**

**Centralized foot control for neutral position provides the operator with a more natural control.**

---

**Smooth, Easy, and Awesome!**

“I work for a landscaping business and my boss bought this mower this year and it’s great. With the new features like the speed indicator and the height gauge, now you know how high to set the deck. The added hour meter is great. The thing I like most are the foot pedals in the middle, which makes it easy to put it in neutral.”

Turf Rider / Northeast OH
The FW25 dual hydrostatic walk-behind packs the professional features of our FW35 model in a narrower package. With easy-to-use controls, an electric start option and a top ground speed of 6 mph, it's all your crew needs to breeze through lawn jobs with little effort. Heavy-duty construction and big, 20" tires paired with a commercial-grade transmission make the FW25 truly perform on those long workdays.

ENGINE
• Manual and electric start options available
• Rugged 5-gallon fuel tank with wide filler neck

MOWER DECK
• Fabricated 10-gauge with double top deck, overlap welded corners and double reinforced side skirts, steel reinforced leading edge, wide discharge opening
• Hand-removable deck-pins, can change cut height from 1.5”- 4.5” in 1/2” increments
• Cast aluminum greaseable spindles with greaseable bearings for longer usable life

DRIVE TRAIN
• Dual, commercial Hydro-Gear® ZT-3100® Transaxes feature 7” cooling fans that assist with repelling debris
• Large turf friendly 20” rear tires for increased traction and performance
• Flat-free caster tires

SPEED
• Ground speed up to 6 mph

OPERATOR SYSTEMS
• Dedicated tie-down points, located in the front and rear, make securing equipment easy
• Cruise control bar conveniently sets speed
• Features easy-to-use CC™ Centralized Controls or Standard Controls
• Centralized foot control for neutral position

ACCESSORIES
• Fabric Grass Catcher, metal grass catcher, mulch kit, professional stripe kit (48”), weight kit

FW25 with CC™ Centralized Controls and 36” Deck

Top Of The Line Without The Top Price

“I bought this mower a month and a half ago and it’s been awesome to say the least. I currently mow about 10 yards and can’t wait to take on more accounts now because they are a breeze with this mower. Love the deck adjustment feature...so easy.”

Dan’s Lawn Service / Arnold, MO

**TURBO-Pro™ MAX**

The TURBO-Pro™ Max System acts as a lawn vacuum for a clean finish in a wide variety of conditions. This commercial-grade system mounts to the deck with a fabricated heavy-duty steel plate and is ideal for use with larger models. Can be used in conjunction with the triple bag soft / hard top, Electric DFS, EZ Dump™ or EZ Dump XL™ bagging options.

- Performs best in normal-to-dry cutting conditions
- Extra wide 7” diameter outlet hose
- Twice the airflow vs. TURBO-Pro™ for increased capacity on larger decks cutting at higher speeds
- Rugged steel impeller housing designed for extended life
- Heavy-duty oversized drive and idler pulleys combined with a long drive belt allow for cool running and maximum belt life

**TURBO-Pro™**

- Performs best in normal-to-dry cutting conditions
- Generous 6” diameter outlet hose
- Lightweight design built to withstand commercial use
- Durable composite impeller housing with reinforced metal plate for high contact debris areas
- Heavy-duty oversized drive and idler pulleys combined with long drive belt allow for cool running and maximum belt life
- Curved steel blade impeller reduces noise
- After initial installation, the quick attach design can be mounted or removed with no tools in a few minutes
- Approximate blower weight: 50 lbs. (44"/48") / 53 lbs. (52") / 55 lbs. (61"), includes mounting bracket

**TURBO-Pro™ Max**

- Performs best in normal-to-dry cutting conditions
- Extra wide 7” diameter outlet hose
- After initial installation, the quick attach design can be mounted or removed with no tools in a few minutes
- Approximate blower weight: 72 lbs. (52") / 64 lbs. (61"), includes mounting bracket

**EZ Dump™**

- Curved steel blade impeller reduces noise
- After initial installation, the quick attach design can be mounted or removed with no tools in a few minutes
- Approximate blower weight: 72 lbs. (52") / 64 lbs. (61"), includes mounting bracket

**EZ Dump XL™**

- Curved steel blade impeller reduces noise
- After initial installation, the quick attach design can be mounted or removed with no tools in a few minutes
- Approximate blower weight: 72 lbs. (52") / 64 lbs. (61"), includes mounting bracket
The FAST-Vac® System is built around a tough, high-volume side panel air induction system that reduces clogging and produces significantly more air volume than conventional systems. The rugged impeller utilizes industrial-grade bearings, generates phenomenal airflow. Its spindle-driven vertical turbo is narrower, allowing you to get in and out of tight places. Can be used in conjunction with the triple bag soft / hard top, Electric DFS, EZ Dump™ or EZ Dump XL™ Bagging options.

- Your optimal choice, especially in heavy and wet cutting conditions
- Super rugged impeller rides on industrial-grade bearings to generate a phenomenal airflow
- Commercial-grade idler and pulleys drive the vertical, spindle-driven turbo resulting in a very narrow profile for improved maneuverability
- Extra wide 7” diameter outlet hose
- Approximate blower weight: 83 lbs. (52”) / 85 lbs. (61”), includes mounting bracket

### Bagging Options

#### Double Bag Soft Top
The double bag collection system is simple to install. Each heavy-duty mesh bag has a rugged polyethylene underside with integrated handle to assist with removal. Capacity: 9 cubic feet

#### Double Bag Hard Top
Innovative molded hard top design allows for increased capacity. Simple to install. Each heavy-duty mesh bag with rugged polyethylene bottom has an integrated handle and tapered bag to assist with removal. Capacity: 10 cubic feet

#### Triple Bag Soft Top
Simple to install. Each heavy-duty mesh bag has a rugged polyethylene underside with integrated handle to assist with removal. Capacity: 12.5 cubic feet

#### Triple Bag Hard Top
Innovative molded hard top design allows for increased capacity. Simple to install. Each heavy-duty mesh bag with rugged polyethylene bottom has an integrated handle and tapered bag to assist with removal. Capacity: 15 cubic feet

### Dump from Seat Hopper Options

#### Electric DFS
Simply flip the switch on the control panel to release the hopper right from your seat. (Only works with triple bag soft top) Capacity: 12.5 cubic feet

#### EZ Dump™
The EZ Dump™ increases productivity by giving the operator the ability to release grass clippings from the riding mower seat. The hopper is specially lined to ensure that all material is dumped each time for increased productivity. The low profile of this system is better for visibility when compared to competitive commercial lawn mower attachments. Winch assisted mounting system eliminates need to lift hopper. Capacity: 12 cubic feet

#### EZ Dump XL™
The EZ Dump XL™ Collection System is ideal for large landscaping jobs. Simply handle operation will release the hopper right from your mower seat. The hopper is specially lined to ensure that all material is dumped each time for increased productivity. Winch assisted mounting system eliminates need to lift hopper. Capacity: 14 cubic feet

### NEW! EZ Dump™ Winch
This hand operated winch makes installing and uninstalling the EZ Dump™ and EZ Dump XL™ easy and convenient for a single person and is now standard with both hopper options.
### Accessories & Attachments

**Accessories & Attachments**

- **Fabric Grass Catcher**
  - Durable, fabric bag with hard plastic bottom; attaches quickly. Capacity: 3.75 or 3.25 bushels (Select models)

- **Metal Grass Catcher**
  - Rugged steel framed catcher has handles that make attaching and removing a breeze. Capacity: 3.5 bushels (Select models)

- **Mulch Kit**
  - Select kits include dedicated mulching blades, baffles, hardware and instruction sheet.

- **Light Kit**
  - Select models are pre-wired for simple installation. (Select models)

- **LED Light Kit**
  - Energy efficient heavy-duty ROPS mounted LED Light Kit with retractable seat belt.

- **Flat-Free Caster Tires**
  - Run all day with no flats. Available. (ProCut™ S only)

- **Armrests**
  - Add three foldable armrests to your IS® 600Z for increased operating comfort.

- **Suspension Seat**
  - High quality adjustable seat features red trim with adjustable armrests for added comfort. (Except 36” mower deck models)

- **Premium Mid-Back Seat**
  - Standard or Premium Mid-Back seat. (Select models)

- **Snow Cab**
  - Enclosed cab with use with the 60” snow blower and 60” broom attachments. (F800X only)

- **Folding ROPS**
  - 180° fold over ROPS (IS® 600Z only)
  - Optional (Standard on select models)

- **ROPS Mounted LED Light Kit**
  - Standard or Optional (Select models)

- **Mulch Kit**
  - Will accept a 1/2” shank ball and comes complete with hardware.

- **Metal Grass Catcher**
  - Two-stage 50” snow blower with electric chute rotation available. (ProCut™ S only)

- **50” Snow Blower**
  - Two-stage 50” snow blower. (F800X only, shown optional cab shown)

- **60” Broom**
  - Clears snow, sweeps debris from sidewalks, and can be used as a turf dethatcher. (F800X only)

- **60” Snow Blower**
  - Two-stage 60” snow blower. (F800X only, shown optional cab shown)

- **Trailer Hitch Kit**
  - Optional (Select models)

- ** trat-tray seat**
  - Optional (Standard on select models)

- **36” Models Only**
  - Optional

- **48” Models Only**
  - Optional

- **50” Snow Blower/Cab**
  - Optional

- **52” Models Only**
  - Optional
